**DETAILED ACTION**

1. In response to the previous office action, Applicant has amended claims 75-77, 79-81, 83-87, 89-91, 93-95, 97-99, 101-103, 105, and 106 and added claims 107-124.
2. Regarding Applicant's request to reconsider the previous election requirement (see Remarks, filed 30 July 2004, pp. 18-19), it is noted that the sequence of messages sent between the two sides in the elected class as amended would also function properly within the invention of the non-elected class; because of this, no additional prior art search is deemed necessary; therefore, the previous election requirement is being withdrawn.
3. Claims 75-124 have been examined.

***Allowable Subject Matter***

4. Claims 75-124 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The claims as amended further expound upon the use of time intervals such that Dwork can no longer be relied upon to teach the manner in which the timestamps are being used to modify Bellovin's algorithm, and no other art could be found.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

7. Applicant's arguments, see Remarks, filed 30 July 2004, with respect to the previous rejections have been fully considered and are persuasive in view of Applicant's amendments. The rejections of claims 75-89 have been withdrawn.

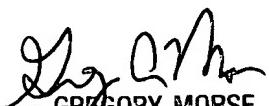

***Conclusion***
